PROJECTS & INTERNSHIPS

Voice Controlled Wheel Chair

Kakinada Institute Of Engineering & Technology

Jan, 2018 - Apr, 2018

We are implementing a wheelchair for handicapped people with voice commands sent through the Bluetooth module and transmitting to an Arduino module. When the Bluetooth module listens to the commands it operates the chair along the direction given by the Bluetooth module.

Electronic Notice Board

Kakinada Institute Of Engineering & Technology

Nov, 2017 - Dec, 2017

The project is to develop a wireless notice board that displays messages sent through the user's mobile. We used SIM loaded GSM modem at the receiver unit.
